

Open Access Journals Bibliography

Charles W. Bailey, Jr.

8/23/2010

This bibliography presents over 210 English-language scholarly works that are useful in understanding open access journals. It does not cover works about e-prints or works that include open access journals in a treatment of diverse types of research materials.

Most sources have been published from 1999 to the present; however, a few key sources published prior to 1999 are also included. The bibliography primarily includes books and published journal articles. A limited number of magazine articles and technical reports that are deemed to be of exceptional interest are also included. (See the scope note for further information.)

The bibliography includes links to freely available versions of included works. Such links, even to publisher versions and versions in disciplinary archives and institutional repositories, are subject to change. Note that e-prints and published articles may not be identical.

Appendix B. About the Author

Charles W. Bailey, Jr. is the publisher of Digital Scholarship. From 2004 to 2007, he was the Assistant Dean for Digital Library Planning and Development at the University of Houston Libraries. From 1987 to 2003, he served as Assistant Dean/Director for Systems at the University of Houston Libraries. From 1976 to 1986, he served as the head of the systems department at an academic medical library, a systems librarian at a research library, a technical writer at a bibliographic utility, and a media librarian at an academic media center. He holds master's degrees in information and library science and instructional media and technology.

In 1989, Bailey established PACS-L, a mailing list about public-access computers in libraries, and *The Public-Access Computer Systems Review*, one of the first open access journals published on the Internet. He served as PACS-L Moderator until November 1991 and as founding Editor-in-Chief of *The Public-Access Computer Systems Review* until the end of 1996.

In 1990, Bailey and Dana Rooks established *Public-Access Computer Systems News*, an electronic newsletter, and Bailey co-edited this publication until 1992.

In 1992, he founded the PACS-P mailing list for announcing the publication of selected e-serials, and he moderated this list until 2007.

In recognition of his early electronic publishing efforts, Bailey was given a Network Citizen Award by the Apple Library in 1992 and the first LITA/Library Hi Tech Award for Outstanding Achievement in Communicating to Educate Practitioners within the Library Field in Library and Information Technology in 1993.

In 1996, he established the *Scholarly Electronic Publishing Bibliography (SEPB)*, an open access book that has been updated over 75 times.

In 1997, he added *Scholarly Electronic Publishing Resources*, a directory of relevant websites, to *SEPB*.

In 2001, he added the *Scholarly Electronic Publishing Weblog*, which announces relevant new publications, to *SEPB*.

In 2001, he was selected as a team member of *Current Cites*, and he has subsequently been a frequent contributor of reviews to this monthly e-serial.

Bailey was profiled in the *Movers & Shakers 2003: The People Who Are Shaping the Future of Libraries* supplement to the March 15, 2003 issue of *Library Journal*.

In 2005, Bailey established Digital Scholarship (<http://digital-scholarship.org/>), which provides information and commentary about digital copyright, digital curation, digital repositories, open access, scholarly communication, and other digital information issues. Digital Scholarship's digital publications are open access. Both print and digital publications are under versions of the Creative Commons Attribution-Noncommercial License. In 2005, he also established *DigitalKoans*, a weblog that covers the same topics as Digital Scholarship.

In 2005, he also published the *Open Access Bibliography: Liberating Scholarly Literature with E--prints and Open Access Journals* with ARL (a paperback, a PDF file, and an XHTML website), the

Electronic Theses and Dissertations Bibliography, the *Google Book Search Bibliography*, and the "Open Access Weblibliography" (with Adrian K. Ho).

In 2008, he published *Author's Rights, Tout de Suite* and *Institutional Repositories, Tout de Suite*.

In 2009, he published the *Scholarly Electronic Publishing Bibliography: 2008 Annual Edition* (a paperback, a Kindle e-book, and a PDF file) and the *Institutional Repository Bibliography*.

With the exception of the *Open Access Bibliography: Liberating Scholarly Literature with E-prints and Open Access Journals*, Bailey periodically updates his Digital Scholarship bibliographies.

For more details, see the "[Digital Scholarship Publications Overview](#)."

Bailey has written numerous papers about open access, scholarly electronic publishing, and other topics. See the "Selected Publications of Charles W. Bailey, Jr." for a more complete description of his publications (<http://digital-scholarship.org/cwb/bailey.htm>).
